

POTWASHER CE-UWL

Installation Checklist

POTWASHER | Model CE-UWL | V-TAI

Confirm power, water, drainage, exhaust, floor and clearance before the CE-UWL ships. Walk each item with your contractor before production.

Power

- Supply confirmed: 380V / 50Hz / 3PH (or 220V / 1PH variant ordered)
- Capacity for 27.4 kW total load, 10 mm² cable, correctly-rated breaker

Water & drainage

- 3/4" inlet at 0.2-0.5 MPa available
- 1-1/2" drain with a trap nearby
- Water hardness under 5 dH, or a water softener planned

Exhaust & floor

- 175 mm dia. exhaust path to an overhead hood
- Level concrete floor with a drain nearby

Space & access

- 1030 x 895 x 1825 mm footprint with front-door clearance and rear service access
- Delivery route confirmed for the crated machine
